SFS**360**

SFS360
Release notes
V4.3.1

09/02/2020

Stranded Flight Solutions

Table of Contents

Introduction

This document consists of all the new features, the upgrades and the known issues for release 4.3.

Although all functionalities have been rigorously tested, please share unlisted items in Test Monitor. This process lists the unknown issue for future release. If you read about any features that are not available in your standard SFS360 platform configuration, please contact your SFS account manager so these configuration settings can be explored.

New features

1. 2782 - PNR should not be limited to 6 characters for all airlines. Now configurable by Stranded Flight Solutions.

2. 2574 - Hotel details Reports. Airlines have the possibility to generate reports on a specific hotel. This is possible for the Service passenger report, rooms purchased report and rooms assigned report.

3. 2213 - Invoice details to be known by the hotels, so needed for registration, therefore SFS360 has more options and is more flexible to set up different invoicing/billing routes.

4. 2787 - add name variables throughout language and texts. <pax_first_name> and <pax_last_name> placeholders are processed throughout the languages & texts feature.

5. 3055 -Printing Taxi Voucher on boarding card <1 km. Book a taxi for a hotel that is < 1 km from the airport, we should be able to issue a taxi because even if the hotel is not far away some passenger is not able to walk that distance (and the taxi service was added for a reason)

6. 2887 - Flight number to long can be entered. Better validations on flight number entry on the add passenger manually page.

7. 2886 - More options for self-service URL expiry for PAX on a flight (departing yesterday) with irreg reason DLY1. There are more configuration options for the expiry of a URL that is given to a passenger

8. 2929 – There have been made improvements on the automatic communication feature. Better back end configuration options and improvements in logic

9. 3249 - add customer manually - irreg reasons. Validation and design changes have been made to improve the page look & feel an UX of the add passenger manually page. Therefore, also created better configuration page in the back end

Upgraded features

1. 2764 - Wrong distance from airport to hotel is 0.00 km on the self-service webpage. The distance from airport to hotel as page search is shown

2. 1873 - Photo viewer on the Hotels details page is improved so photos are scaled correctly

3. 2759 - Passenger detail page language dropdown is sorted on a-z

4. 1906 - Subject and sender name in the messages section on mobile page is improved.

5. 2682 - Open blocks reminder email from backend feature is corrected.

   This email is sent as a reminder to a hotel when a block stays OPEN

6. 2827 - possible to change hotel address

7. 2705 - BUG I96 it seems that we cannot upload images to all hotels, so improvements are made in the SFS360 back end

8. 2457 - Improvements on printing credit cards

9. 2825 - Issue with max price for taxi is fixed

10. 2826 - 2826 Taxi no validity date on the A4 printed voucher improvements

11. 2766 - warning message should appear when leaving group mode. Improvements on interaction

12. 2578 - Improvements on hotel information

13. 2862 - Bug fix regarding XML / PDF report

14. 2866 - Webservice hotels import improvements

15. 2206 - Better interaction when pictures that are uploaded by hotels are to large

16. 0836 - Improvements on meal plans when bookings are made for two

17. 2211 - Contracted rates for hotels can be insert for a longer period of time (more than 1 month)

18. 3238 - SAP XML issue with comma in number for high amount 1,000.00 in the "rooms not used" PO and invoice

19. 3233 - Issue voucher for taxi error fix

20. 3244 - Import passengers Amadeus issue. This issue can cause because of processing large data when importing and cause the time out error so the processing was not completed, more logging

21. 3114 - Reporting JSON version improvements for report service passenger and report rooms purchased

22. 3117 - Print block code on transportation voucher

23. 3245 - Improvements on reload function

24. 3211 - Data sync issue fixed

25. 3118 - Time zone calculation bug fixed

26. 3057 - Add / Update Hotel cannot save "Short description of the hotel"

27. 3248 - Sort order on the hotel search page. Added an option to sort by estimated costs

28. 2763 - Improvement on All Airports selection at the top of the page gave an issue and resulted in a broken page

29. 3212 - Improvements on hotel dashboard

30. 3054 - Shuttle service not shown in hotel list. Added information on the hotel list and the hotel detail page

31. 3058 - Yesterdays flight customer was not shown on dashboard

32. 3052 - Taxi voucher for 2 passengers (staying in a double room) printed on boarding card

33. 2761 - Self-service: hotel description should always show English (default language)

34. 3076 - BUG Issue voucher for UNMR and YOUNG. Not send communication to UMNR or YOUNG passengers, and screen updates

35. 3050 - Select passenger page irreg reason was showing twice

36. 3357 - Hotel List - Sort List by distance

37. 3053 - 'Print on boarding pass' button should change to 'reprint on boarding pass'

Known issues

1. At the bottom of the hotel dashboard the admin can invite hotels to upload rooms. When a hotel is invited for the first time this day the current message is "invitation successful". When inviting the hotel again the message is "you already invited this hotel".
